Action Needed!

SNA has submitted comments in response to USDA's Child Nutrition Programs: Transitional Standards for Milk, Whole Grains and Sodium for SY 2022-23 and SY 2023-24. We urge all members to take action TODAY to ask USDA to ease rules for schools battling supply chain disruptions.

TAKE ACTION!

Submit your comments in response to the transitional rule through SNA's Action Network! Comments are due by 11:59 PM on March 24. Consider using the pre-provided, editable text to share your support for SNA's comments, and add details about the challenges your school meal program or company faces in meeting these standards, as well as concerns about USDA's plan to propose additional long-term nutrition standards this fall. When you submit your comment to USDA, a second message will be sent to your legislators to emphasize the critical need for their support.
